

Education Unlimited - Our Vision, Mission and Values

Vision Statement

Thriving Educational Communities with leaders who *lead* and teachers who love to *teach*.

Mission Statement

To assist School Leaders to flourish and to build stimulating Educational Environments which allow their teachers to excel and their students to have unlimited aspirations and successes, particularly in Mathematics & the Sciences.

Our Values are

- **Aspire**
We aspire to provide outstanding support for educational communities, so that they may thrive and flourish as places of high standards in learning and educational attainment.
- **Enthuse**
We are enthusiastic about Learning in all its forms, and especially about Mathematics. We see Mathematics as an exciting and creative subject which is a central component of the curriculum. We will endeavour to share our enthusiasm for learning and our passion for education with your teachers to help them to be outstanding communicators of their discipline.
- **Partnership**
We work in partnership with schools – we will help schools to improve, and we will work seamlessly with them, providing a bespoke service to meet each Schools' needs and requirements.
- **Challenge**
We all need some sense of challenge to enable us to grow and develop new ways of thinking. We challenge Schools to provide the best possible education, and we will help them to develop a culture of sharing best-practice and so be centres where staff naturally seek continuous professional development based on proven research.

Our Ethos – How we work : At Education Unlimited, how we work with clients reflects our aspirations and our enthusiasm; we work in partnership with schools, and will help them face the challenges that meet them, by providing our educational support of the highest standards, based on current and proven research methods.
